Introduction

The Program

The Pennsylvania Uniform Crime Reporting (UCR) Program was established as a result of the Uniform Criminal Statistics Act of 1970 (71 P.S. 307.8 and 307.9). Powers and duties concerning criminal statistics were given to the Office of Attorney General. In October 1973, the Uniform Crime Reporting duties set forth in the Act were transferred to the Commissioner of the Pennsylvania State Police by Reorganization Plan No. 7 of 1973 (71 P.S. 755-7).

The counterpart to the Pennsylvania UCR Program is the National UCR Program, under the direction of the Federal Bureau of Investigation (FBI). This national program is the result of a need for nationwide and uniform compilation of law enforcement data. Uniform Crime Reports, developed by a committee of the International Association of Chiefs of Police (IACP), were first collected in 1930. The IACP continues to serve in an advisory capacity to the FBI in its operation of the national program. The UCR Committee of the Pennsylvania Chiefs of Police Association was instrumental in the development of our State program.

In 2015, the FBI began the National Crime Statistics Exchange (NCS-X) Initiative, providing support to local agencies and state UCR programs to begin the transition to the National Incident-Based Reporting System (NIBRS). The PA UCR program has achieved NIBRS certification from the FBI and is currently administering the state's transition to NIBRS.

The primary objectives of the Pennsylvania UCR Program are to inform the Governor, Legislature, other governmental officials, and the public as to the nature of the crime problem in Pennsylvania, and to provide law enforcement administrators with criminal statistics for administrative and operational purposes.

There are many factors which will affect the type and volume of crime that occurs from place to place. Some of these are listed in "Crime in the United States," and are reprinted in this report.

This report contains data from both Summary UCR and NIBRS contributors. For the purposes of this report, all NIBRS data has been summarized and converted to Summary UCR data for analysis, trend, and comparison purposes.

Classification of Offenses

Uniformity in reporting under the Pennsylvania system is based upon the proper classifications of offenses by police. The adoption of the Federal system of reporting included the utilization of the offense classifications of that system. Law enforcement personnel in this State have made accurate application of those classifications in the reports submitted to the program.

In view of the need for compatibility with the Federal system, the categories of offense classification employed in this program remain the same as those employed on the national level. Care must be taken by police officers in classifying because of the conflicts between this system and the Pennsylvania Crimes Code.

Part I Offenses

Calculation of Rates

The UCR Program provides data for police administrators to measure local problems; in order to facilitate this function, it is sometimes necessary to convert the data into rates or percentages. The following formulas are presented to assist in these computations.

Crime Rates

One of the most useful crime statistics is the crime rate, which is the number of offenses per 100,000 persons. This rate can be calculated regardless of the number of inhabitants in a jurisdiction. To compute crime rates, multiply the number of offenses by 100,000 then divide the jurisdiction's population into that answer.

Example:

$$\frac{182 \text{ robberies} \times 100,000}{50,000 \text{ population}} = \frac{18,200,000}{50,000} = 364$$

The crime rate for robbery is 364 per 100,000 population.

Clearance Rates

The percentage of crimes cleared by arrest is calculated by dividing the number of offenses cleared by the number of actual offenses known. This answer is then multiplied by 100.

Example:

$$\frac{147 \text{ robberies cleared}}{364 \text{ robberies known}} = 0.404 \times 100 = 40.4 \%$$

The clearance rate for robbery is 40.4 percent.

Law Enforcement Employee Rates

These rates are conventionally expressed as the number of employees per 1,000 population. The rate is calculated by multiplying the number of employees by 1,000 then dividing the jurisdiction's population into that answer.

Example:

$$\frac{102 \text{ employees} \times 1,000}{50,000 \text{ population}} = \frac{102,000}{50,000} = 2.04$$

The rate is 2.04 employees per 1,000 population.

Summary of Crime in Pennsylvania

There were 646,878 actual crimes of all types reported to the UCR Program by Pennsylvania law enforcement agencies in 2024. This represents a rate of 4,583.42 crimes per 100,000 population, a decrease of 6.71 percent from the previous year's total of 693,432 actual crimes.

Crime Index offenses are considered to be both the most serious and most likely to be reported, and are used nationally as the standard base for comparisons. Crime Index offenses include the following: murder and nonnegligent manslaughter, rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. Manslaughter by negligence is a Part I offense; however, it is not considered part of the Crime Index.

In 2024, 225,888 Crime Index offenses were reported. Of these reported offenses, 224,042 were confirmed by Pennsylvania police agencies after investigation. The 1,846 unfounded offenses, or 0.82 percent, ranged from 0.00 percent unfounded for human trafficking, to 6.80 percent unfounded for murder and nonnegligent manslaughter. Crime Index offenses decreased by 6.97 percent from last year's total of 240,833. The Crime Index rate in 2024 was 1,587.44 per 100,000 population.

In addition, 422,739 Part II offenses were reported in 2024, with a rate of 2,995.30 per 100,000 population. This is a decrease of 6.58 percent from the 452,500 Part II offenses reported the previous year. Part II offenses include: other assaults, forgery and counterfeiting, fraud, embezzlement, stolen property, vandalism, weapons, prostitution, other sex offenses, drug abuse violations, illegal gambling, offenses against the family, driving under the influence, liquor law violations, drunkenness, disorderly conduct, vagrancy, and all other offenses.

In 2024, 44.48 percent of all offenses were cleared (27.83 percent of the Crime Index offenses, and 53.29 percent of all Part II offenses). An offense is considered cleared when at least one person involved in the commission of the offense has been arrested, charged, and turned over to the court for prosecution. An offense can be cleared by exceptional means when an element beyond law enforcement control prevents filing of formal charges against the offender.

A Metropolitan Statistical Area (MSA) is composed of an entire county or group of counties that includes at least one core city, with the entire area meeting criteria of certain metropolitan characteristics established by the United States Census Bureau.

In 2024, the overall volume of offenses was highest in MSA Suburban jurisdictions; however, the crime rate of MSA Core City jurisdictions continued to be much higher than the MSA Suburban jurisdictions during this period. It should be noted that no attempt is made throughout this report to correct for the influx of seasonal/temporary residents and tourists during the year. Crime rates are based upon the permanent population.

Arrests

Arrests are primarily a measure of success by police in relation to the criminal offenses taking place within a community. Arrest practices, policies, and enforcement emphasis will vary from place to place and from time to time within a community. Arrests do, however, provide a useful indicator as to the age, sex, and race of persons involved in criminal acts, especially for crimes that have high solution rates.

A total of 262,831 arrests were made in Pennsylvania in 2024, a 3.66 percent decrease from the previous year. As indicated in the following table, Part II offense arrests totaled 206,790 or 78.68 percent of all arrests, a 5.67 percent decrease from last year. Part I offense arrests numbered 56,041 or 21.32 percent of all arrests, increasing by 4.56 percent from the previous year.

Arrests by Offense Category

Offense Category	Offenses	Percent Distribution	Rate per 100,000 Population	Percent Change from Last Year
Part 1 Offenses	56,041	21.32%	397.00	4.56%
Part 2 Offenses	206,790	78.68%	1,465.00	-5.67%
Statewide Totals	262,831	100.00%	1,862.00	-3.66%
Crime Index Offenses	55,968	21.29%	397.00	4.57%

Analysis of Arrests

Analysis revealed that in 2024, 71.34 percent or 187,510 arrestees were male; 28.66 percent or 75,321 were female; 66.87 percent or 175,764 were White; 31.11 percent or 81,772 were Black; 1.40 percent or 3,690 were Other Races; 9.72 percent or 25,536 were under 18 years old; and 26.46 percent or 69,552 were under 25 years old. Arrests of males decreased by 3.63 percent, and arrests of Whites decreased by 5.43 percent, while arrests of juveniles decreased by 8.53 percent from the previous year.

For UCR purposes, an adult arrest is counted for each adult processed by arrest, citation, or summons, including those individuals arrested and released without a formal charge being placed against them. Crime suspects who are questioned and released are not counted as an arrest. A juvenile arrest occurs when a juvenile is taken into custody for committing an offense under circumstances such that if they were an adult, an arrest would be tallied. Juveniles arrested or taken into custody, but merely warned and released without being charged, are also counted as an arrest. The UCR Program considers a juvenile to be an individual under the age of 18, regardless of the state definition.

Ethnic Intimidation, Bias Motivation, and Hate Crime

Ethnic intimidation is defined by Title 18 Pa. C.S., Subsection 2710, as any crime against the person or an arson, criminal mischief, other property destruction (except institutional vandalism), or criminal trespass that is committed "...with malicious intention toward the race, color, religion, or national origin of another individual or group of individuals..."

Crime Index Offenses

Definition: Crime Index offenses are crimes that are considered by law enforcement to be the most serious crimes that readily come to the attention of police and occur with a frequency great enough to be reported as a separate classification. Crime Index Offenses are used nationally as a basis of criminal activity. The following offenses comprise the Crime Index:

- Murder and Nonnegligent Manslaughter
- Rape
- Robbery
- Aggravated Assault
- Burglary
- Larceny-Theft
- Motor Vehicle Theft
- Human Trafficking
- Arson

Percent Change from Previous Year	-12.44%	-0.73%	19.24%	4.06%	-6.97%

Crime Index Offense Summary

There were 224,042 Crime Index offenses reported to the state UCR Program in 2024 an average of 612 each day, or 1 every 2 Minutes and 21 Seconds. This is a 6.97 percent decrease from the 240,833 Crime Index offenses reported the previous year. The Crime Index rate in 2024 was 1,587.44 per 100,000 population.

Crime Index Arrests

There were 55,968 arrests for Crime Index offenses in 2024. This is a 4.57 percent increase from the 53,523 arrests the previous year.

Crime Index Offense Clearances

All UCR offenses can be cleared by Arrest or by Exceptional Means (Cleared Exceptionally). Cleared Exceptionally indicates whether the reporting agency cleared the incident by exceptional means. In a multiple-offense incident, the exceptional clearance of one offense clears the entire incident. This is not to be confused with administratively closing an investigation. Additionally, reporting agencies cannot clear an incident exceptionally if it was previously or is concurrently cleared by arrest. Four criteria must be met in order to clear an offense by exceptional means:

1. The reporting agency investigation must have clearly and definitely established the identity of at least one offender.

2. The reporting agency must have sufficient probable cause to support arresting, charging, and prosecuting the offender.
3. The reporting agency must know the exact location of the offender so they could make an arrest if circumstances did not prevent it.
4. There must be a reason outside the control of the reporting agency preventing the arrest, charging, and turning over for prosecution (i.e., one of the following):
 - o Death of Offender
 - o Prosecution Declined (by the prosecutor for other than lack of probable cause)
 - o In Custody of Other Jurisdiction (includes extradition denied)
 - o Victim Refused to Cooperate (in the prosecution)
 - o Juvenile/No Custody (the handling of a juvenile without taking him/her into custody, but rather by oral or written notice given to the parents or legal guardian in a case involving a minor offense, such as larceny-theft)

Crime Index Offense Trends

Murder and Nonnegligent Manslaughter

Definition: The willful (nonnegligent) killing of one human being by another.

Note: These offenses are classified and scored on the basis of police investigation as opposed to any decision of a court, coroner, jury, or other judicial body. Manslaughter by Negligence and Justifiable Homicides are not included in this category.

5-Year Annual Trend

2-Year Monthly Trend

Physical resistance is not required on the part of the victim to demonstrate lack of consent.

This offense includes assaults committed with a firearm, knife/cutting instrument, other dangerous weapon, and hands, fists, feet, etc.

5-Year Annual Trend

2-Year Monthly Trend

Common Human Service Regions

In 1967, the Governor's Office proclaimed six "Common Human Service Regions" (CHSR) in Pennsylvania, consisting of generally comparative counties in terms of interrelated needs and populations (see map below). Accordingly, the tables in this report are organized with the individual counties identified alphabetically within the CHSRs.

These regions are considered "standardized" for Commonwealth planning and reporting purposes. They should not be confused with Metropolitan Statistical Areas (MSA), although there may be similarities.

The following tables summarize the distribution of Crime Index offenses among these regions.

Contributions and Delinquent Agencies

During 2024, the Pennsylvania Uniform Crime Reporting (UCR) Program received data from 1,402 contributors. Contributions to the Program may range from the submission of data for one month to the submission of data for the entire year. Additionally, individual agencies may have submitted data covering multiple jurisdictions. A current report of all contributing agencies is available at the following link: <https://www.ucr.pa.gov/PAUCRSPUBLIC/Report/AgencyMonthlyTracker>

Prior to June 1, 2005, reporting of UCR data by Pennsylvania law enforcement agencies was not mandatory. On November 29, 2004, Governor Edward G. Rendell signed Act 180 into law, which mandated UCR reporting for all state, county, and local law enforcement agencies within the Commonwealth.

The information contained in this complete report reflects the data submitted as of the date of its compilation. The analysis is based on data that may have been updated after previous years' reports were published.

In compliance with Section 507 of Act 180, the following lists highlight agencies which, as of the publication of this report, have outstanding monthly submissions for 2024. The UCR Unit is working with these agencies to complete the required data submissions.
